Fun Things To Do With Light

Light, as subject by itself and through its interaction with matter, has been the guiding motif throughout my career, from undergraduate studies at University to my current role in industry.

In this talk I will present a few examples of my encounters drawn from various scientific disciplines, spanning the electromagnetic spectrum from the UV over the visible all the way to the far infrared (or terahertz) region.

Monday, 2 December 2019,

17:00 get-together with coffee and snacks!

17:30 Alumnus Talk

Lise Meitner Hörsaal, Strudlhofgasse 4, 1st floor, Vienna

Hosted by: Karl Unterrainer
